How Komrisk mitigated the Legal risk of a Chemical Manufacturing Company in India

The Indian chemical manufacturing industry has been undergoing substantial changes in the realm of innovation or research and development, making it one of the most thriving industries in India.

However, with the emergence of innovation, regulatory complexities and stringent policies governing the sector also increases. There have been substantial regulatory changes that the sector has undergone over the last few quarters in industry-specific laws, labour laws and laws regarding the Environment, Health and Safety. Komrisk, our enterprise compliance management solution has helped a lot of our clients sail through these changes effortlessly.

Let us understand how our compliance management system has helped our clients manage and mitigate their compliance risk through a case study...[Read More](#).
