## **Are you compliant with the regulatory framework as an Indian exporter of agri-products?**

India has a wide range of agri-products, which includes, crops, fruits, vegetables as well as the by-product of cattle, sheep, poultry, that is milk and eggs. The rural population of India is largely engaged in the business of agriculture products and the Government of India aims to increase manifold the Agricultural exports in the next few years enabling farmers to get benefits of export opportunities.

Agricultural production relatively remained unaffected by the Covid-19 induced lockdown and witnessed an increase of 18.49% in its export of agri-products. Even during the pandemic, the Government brought out changes to existing laws and regulations for export of agriculture products from India like requirement for obtaining Certificate of Inspection, Verification Regulation and couple of others elucidated below for promotion of exports. This in a way shows that such exporters involved in business of exporting agri-products need to be aware and compliant of the laws and regulations applicable for export purposes...[Read the blog](#).
