Are you logging external UPSI within 48 hours? SEBI's new Regulations have no room for error

How 48 hours could make or break your compliance strategy and how Komrisk keeps you faster than the deadline. Starting from 9th June, 2025, listed companies are required to log any external price-sensitive event, show-cause notices, rating downgrades, or audit findings into their Structured Digital Database (SDD) within 48 hours.

You need Komrisk by Lexplosion Solutions, which is a smart compliance management system that does not just track compliance but sprints ahead of deadlines, provides real-time alerts, creates compliance workflows, and gives you access to audit trails for compliance.
